Labourdispute at CCC in Colombia

Dear Ladies and Gentlemen,

we have been informed that The Coca Cola Company in Colombia (FEMSA) is currently neglecting to negotiate with the responsible union Sinaltrainal. The union had seized a hungerstrike at the beginning of November after company representatives agreed to negotiate with Sinaltrainal issues in question presented by the union, and that there will no persecution of union members involved in the dispute.

Unfortunately, the company did not comply with what was agreed on. Instead it is heating up the conflict by excecuting dismissal and warnings of representatives of Sinaltrainal who then felt forced to start a hungerstrike again.

We ask you to withdraw from any persecution measures and sit with the union in good faith in order to solve the problems of the workers.

Kind regards

Beatrix Sassermann
